

Two commands are your index: `hermes tools list` and `hermes plugins list`. Enable anything with `hermes tools enable <name>` / `hermes plugins enable <name>`, then start a new session.

TOOLS (toolsets)

ENABLED	DISABLED
web	video
browser	video_gen
terminal	stt
file	context_engine
code_execution	homeassistant
vision	spotify
image_gen	yuanbao
bfl (FLUX3 video)	a2a
x_search	
tts	
skills	
todo	
memory	
session_search	
clarify	
delegation	
cronjob	
computer_use	

PLUGINS (backends)

Image / Video backends

`xai` xAI Grok Imagine (free w/ SuperGrok)
`fal` FAL.ai (FLUX 2 Pro, GPT Image 2...)
`openai` OpenAI image gen
`openai-codex` Codex image model
`deepinfra` DeepInfra image/video
`krea` Krea AI

[openai-codex] Codex image model

Web search / extract

[web-brave-free] Brave free
`web-exa` Exa (keyless free tier)
`web-parallel` Parallel (keyless)
`web-tavily` Tavily (keyless)
`web-firecrawl` Firecrawl
`web-brave-free` Brave free
`web-ddgs` DuckDuckGo
`web-searxng` SearXNG self-host
`web-keenable` Keenable
`web-xai` xAI web

[web-ddgs]

Browser backends

[browser-firecrawl] Firecrawl cloud browser
`browser-browser-use` Local browser automation
`browser-firecrawl` Firecrawl cloud browser
`browser-browserbase` Browserbase (proxy/stealth)

[browser-b

Messaging platforms

[ntfy-platform] NTFY
`telegram-platform` Telegram
`discord-platform` Discord
`slack-platform` Slack
`teams-platform` MS Teams
`google_chat-platform` Google Chat
`google_meet` Google Meet
`matrix-platform` Matrix
`whatsapp-platform` WhatsApp
`sms-platform` SMS
`ntfy-platform` NTFY
`dingtalk-platform` DingTalk
`feishu-platform` Feishu
`wecom-platform` WeCom
`line-platform` LINE
`irc-platform` IRC
`simplex-platform` Simplex
`raft-platform` Raft
`photon-platform` Photon
`teams_pipeline` Teams pipeline

[dingtalk-pl

Other

[chronos] Managed cron (scale-to-zero)
`a2a-platform` Agent-to-Agent (A2A)
`spotify` Spotify
`email-platform` Email
`chronos` Managed cron (scale-to-zero)
`langfuse` Observability tracing
`security-guidance` Security scan guidance
`disk-clean` Disk cleanup

[langfuse]

SKILLS (installed, 27 categories)

Installed under ~/.hermes/skills/. Enable per-project via the skills system — see hermes skills.
